WELCOME MESSAGE

With deep gratitude and open hearts, we welcome you to the **Second Annual Caminantes de la Nueva Tierra Concert**—a sacred celebration of music, community, and collective service

Tonight, we gather to honor the visionaries, wisdom keepers, and stewards of the new earth whose life mission is to embody love, healing, and the conscious creation of heaven on earth. These Caminantes—walkers of the New Earth—carry ancestral wisdom, protect sacred lands, and birth joy and truth into the world through their work and way of being.

This is more than a concert—it is a prayer and a call to remembrance. It's the planting of seeds that will flourish into the embodiment and manifestation of your divine mission on earth. A space where spirit moves through song, prayer, and celebration. The time to uplift and empower those birthing a joyful earth for generations to come, is here in the now.

As we recognize and award these powerful leaders, may we also feel our own connection to this global movement of awakening. May we inspire you to remember each of us plays a role in co-creating the New Earth—through our choices, our presence, and the love and respect we share for ourselves and one another.

Thank you for showing up, for doing the work and for co-creating a heaven on earth.
